STATISTICS YOU SHOULD KNOW ABOUT!

THESE NUMBERS CAN CHANGE YOUR SMILE JOURNEY

FINDINGS

The report reveals that while the general state of oral health in the U.S. is positive, there is a significant gap in understanding the direct correlation between oral health and specific health conditions such as:

This rate of dental anxiety reflects the fear and discomfort that can prevent individuals from seeking the care they need. But at our practice, we are here to change that narrative.

We understand how dental anxiety can impact your overall well-being, and we're committed to fighting that fear with compassion, care, and understanding.

Signs It's Time for your

DREAM SMILE TRANSFORMATION

You're Avoiding Taking Photos

1

Are you tired of figuring out your best side to smile in photos? When you find yourself hiding behind others or covering your mouth, it's time to reclaim your confidence.

Food Limitations Are Controlling Your Life

2

Want to eat your favorite foods without heartbreak? If you're avoiding social dinners or missing out on foods you love, your smile shouldn't hold you back.

Family Moments Feel Different

3

When you're not fully present in precious family moments because of smile insecurity, transformation awaits.

You've Been Told "No Bone"

4

Other dentists said it's impossible? Our advanced techniques work even when you've been told there's no solution.

Missing or Failing Teeth

5

Whether you're dealing with missing teeth or teeth that are failing, you don't have to live with the discomfort and embarrassment.

You're Ready for Life-Changing Results

6

Ready to gift yourself a new, beautiful superstar smile? When you're prepared to invest in transformative, concierge-level care.

YOUR DREAM SMILE IN TWO VISITS

THE CONSULTATION

The consultation is a thorough evaluation of the needs and wants of every patient, where every single detail about your existing dental condition and medical history is recorded. We then proceed with radiographic imaging, which is thoroughly reviewed with you so you can understand and visualize your current situation. If you are a candidate for a dental implant, the doctor formulates a detailed plan focused mainly on your wants. If the plan is satisfactory to you, we proceed to a dental and medical evaluation of your mouth and the surrounding structures, followed by detailed critical data collection necessary for our restoration of your smile on the day of surgery.

DATA COLLECTION

- ✓ HD Photographs
 - ✓ Scanning of mouth
 - ✓ Myofascial evaluation using a 3D camera
 - ✓ 3D CT Scan of the jaws
- 

THE SURGERY

Our procedures are performed in a state-of-the-art dental operating room. We adhere to the strictest guidelines for infection control in a surgical setting, put in place by the American Dental Association (ADA) and the Centers for Disease Control and Prevention (CDC). As a university professor, Dr. Charles has obtained the highest level of training for these types of procedures. He now teaches resident doctors and practicing dentists how to become better clinicians in their careers.

For peace of mind, our treatment package comes with IV sedation for all patients. With sedation, no eligible patient will have to suffer any pain or discomfort during the procedure. That is why we deem it necessary to provide sedation with all of our procedures. All patients undergoing IV sedation are required to have an escort on the day of surgery. Our surgery time averages about three hours, and a smile is delivered on the day of surgery.

YOUR PERSONALIZED DREAM SMILE

Upon completion of surgery, a fixed full arch appliance will be inserted on the day of surgery. These teeth will help with the healing for the next 90 days. Once healing is complete, we will customize and design your dream smile in our state-of-the-art laboratory. This is a one-on-one process that takes all your aesthetic concerns into consideration.

WHAT'S INCLUDED IN THE PROCESS

- COMPLEMENTARY CONSULTATION
- 3D CAN IMAGING
- CASE PLANING
- CUSTOM SMILE DESIGN
- IV SEDATION EXTRACTIONS IF NEEDED
- BONE GRAFTING AND RIDGE REPAIR
- IMPLANT PLACEMENT
- FIXED IMPLANT RETAINED BIDGE
- YOUR NEW SMILES IN 1 DAY
- NIGHT GUARD
- 5 YEAR WARRANTY

LAB PROCESS

Our team collaborates with our in-house laboratory, JGX LB. With state-of-the-art digital data collection, the team can provide accurate delivery (precision fit). Each data point leads to an accurate and passive fit, allowing for optimal healing and prolonged health of implants and tissue. Our clinic-to-laboratory implant workflow begins with a scan (Primscan), plan & design (Exocad), manufacture (3D printer and/or milling machine), and ends with the finishing process. Collection of patient data is essential for improving the accuracy of our restorative workflow.

TRIOS BY 3SHAPE

The latest generation of intraoral scanners provides the team the ability to obtain highly precise digital impressions of the entire jaw. Its innovative smart pixel sensor processes more than 1,000,000 3D points per second, producing photorealistic and highly accurate data.

3D PRINTER

EXOCAD

A digital 3D modeling software that allows our team to create personalized smile designs to accommodate proper patient function and aesthetic desires.

FINISHING PROCESS

Each appliance is custom shaded to accommodate the patient's individual aesthetic needs.

The (UN)Dental Implant Experience

A Story of Transformation Born from a desire to disrupt the traditional, often intimidating dental experience, The (UN)Dental Implant Experience was created to redefine what's possible in dental care. After seeing how outdated methods caused unnecessary pain, stress, and time-consuming procedures, we knew something had to change. We set out to build a practice that would eliminate those frustrations and provide patients with a more compassionate, streamlined, and innovative way to restore their smiles.

We embraced cutting-edge digital technology to revolutionize implant dentistry, making what used to take weeks or months now achievable in less than 24 hours. This vision allows us to provide life-changing results with precision and speed, giving patients their confidence back faster than ever before. For too long, getting dental implants meant enduring multiple surgeries, extended recovery times, and a series of uncomfortable office visits. Patients were left feeling overwhelmed, anxious, and often hesitant to move forward with treatment. The traditional approach was slow, invasive, and costly, making it inaccessible to many who needed it most.

This is where The (UN)Dental Implant Experience was born—to solve these problems and provide patients with an alternative that prioritizes their comfort, time, and peace of mind. We designed The (UN)Dental Implant Experience to be the exact opposite of what people have come to expect from dental procedures. Our patients deserve less stress, less pain, fewer visits, and the life-changing results of a new smile in just 24 hours. By using state-of-the-art digital workflows, we've made implant procedures faster, more comfortable, and more efficient than ever.

From the moment you walk through our doors, you'll feel the difference. We've crafted an environment that engages all five senses—relaxing signature scents, calming music, and a warm, welcoming atmosphere that take away the anxiety usually associated with dental visits. You'll experience a holistic journey designed to leave you feeling refreshed, not stressed.

The benefits of The (UN)Dental Implant Experience go beyond just a new smile.

- **Time:** Imagine walking into our office with a problem tooth or no teeth at all and walking out just 24 hours later with a complete smile. No long recovery, no waiting weeks for your smile to be finished—just fast, life-changing results.
- **Comfort:** Our less invasive approach means you spend less time in the chair and experience significantly less discomfort. We use advanced techniques to minimize pain, allowing you to get back to your life faster and with more confidence.
- **Confidence and Quality of Life:** Beyond improving your smile, our implants help you chew comfortably, speak with confidence, and even kiss passionately bringing back a sense of normalcy and joy to everyday life.

Imagine being able to enjoy your favorite foods again and feel truly confident in your interactions with others. Our highly skilled team uses the most advanced digital tools to plan and execute flawless procedures, ensuring precision and exceptional results for every patient. We blend expertise and technology in a way that makes the entire process seamless and tailored to your unique needs.

At the (UN)DENTAL IMPLANT EXPERIENCE, we believe in a fully personalized approach. Every smile is different, and so is every patient's journey. From your first consultation to the final result, we'll guide you every step of the way with transparency, care, and clear communication. You'll always know what to expect, and you'll never feel like just another patient—we're here to help you transform not only your smile but your entire outlook on life.

PAIN – FREE PAYMENTS:

HOW FLEXIBLE FULL ARCH DENTAL IMPLANTS FINANCING CAN MAKE YOUR DREAM SMILE A REALITY

When our patients first look into implants, one of the first concerns they have is the cost of the procedure. After all, the cost associated with dental reconstruction can be significant and more often than not, most insurance companies will not cover full mouth implants.

Thankfully, with our variety of financing options, we can make the process of you getting your dream come true smile easier than ever. Here are few ways we help make payments as painless as possible:

01 FLEXIBLE PAYMENTS

With our flexible financing, you're in control of how you pay for your perfect smile. You can contribute as you're able to the total cost of your dental implants, meaning less stress for you and more time to enjoy what really counts- your new pearly whites!

02 INTEREST FREE FOR 12 MONTHS

With interest-free financing for the first 12 months, you don't have to worry about any additional cost, making your payments as dependable as your new implants will be. With zero down dental implants, the dream of getting your smile that much easier.

TAILORED FINANCING SOLUTIONS

Whether it is interest free financing or a flexible dental implant payment plan, at the end of the day, we work with you to help you get your smile back, your confidence back, your life back. When you speak with us, we'll personally assess your needs and help you plan out your path to a perfect smile.

OUR BEAUTIFUL WORKS

IMPLANT CROWN

After

Abdullah had been missing his front tooth since he was a teenager and from his on words "unsexy taking my flipper in and out". We gave him his sexy smile back with a beautiful new smile.

IMPLANT CROWN AND VEENERS

Pierre was tired of wearing a partial denture and also wanted a whiter more beautiful smile, we achieved both desires with veneers and implant crowns. He wishes he had done this sooner.

IMPLANT AND CROWNS

Frank had been wearing dentures for a very long time 23 years to be exact, and he had lost a lot of bone. We were able to give him a beautiful smile, he didn't have to keep taking in and out. We transformed his smile with implants and crowns. What a stunning smile!

IMPLANT CROWN

Melisa came in for a consult, wanting to have her tooth replaced. She said she now notices the missing tooth in pictures and dislikes it. In less than an hour, we were able to get a single implant crown, and she left overjoyed!

IMPLANT CROWN AND VEENERS

Fred was tired of his partial denture; he felt embarrassed and wanted a smile that represented how blessed he felt inside. We placed veneers and implants, and in his words, I wish I had done this sooner

IMPLANT BRIDGE

Marcelle was in a motor accident and needed her front teeth restored. We did this beautifully with an implant bridge, and she also received crowns on the bottom. She loves her new smile and can't stop smiling!

IMPLANT CROWN

Ms. Margaret's teeth were loose as a result of advanced gum disease, we were able to give her back her smile with dental implants and retained dentures in one visit.

ALL ON X

Robert had failing teeth that needed to be replaced. Using Dental implant we gave her a permanent and spectacular smile in a single visit.

ALL ON X

Before

After

Paul is a circus performer who says he was terrified of the dentist and finally got the courage to come in because of tooth pain and embarrassment. Utilizing dental implants, we were able to give him permanent upper teeth in one visit.

ALL ON X

Before

After

Maribeth had a medical condition that caused her teeth to decay. With dental implants, we were able to give her permanent upper teeth in one visit!

ALL ON X

Before

After

Ms. Martha needed a new smile and wanted something non-removable. We gave her the smile of her dreams with implants, and now she says she can eat all her favorite foods again and loves going out to eat with family and friends!

ALL ON X

Luis is a dear patient who had temporary dentures and wanted to replace his teeth with something permanent that would give him peace of mind and the ability to chew all of his favorite foods. We were able to achieve this for him with implant-supported dentures. He loves his new smile!

ALL ON X

This great patient had a medical condition that led to rampant teeth decay which also caused a lot of pain. We did a full mouth reconstruction procedure including implant fixed bridge. She now enjoys her smile to the fullest without any reservations of eating good food.

ALL ON X

Our awesome patient lost her teeth prematurely and wanted something fixed so she didn't have to take it in and out. We were able to give her permanent teeth with implants in one visit.

What Our Patients Say

"You didn't just give me back my smile... you gave me back my life."

"It worked... and it was peaceful."

"I can eat confidently again."

"I finally feel like myself again."

I was very impressed by the attention to detail and the focus on the customer's comfort/experience. I met with Sharon for a consultation and she was friendly and helpful. She gave a great overview of services offered. It is clear that excellence is a top priority at All About Smiles!

Kenwin Hunte

I've been coming to All About Beautiful Smiles for 10+ years. The doc and staff are amazing. My absolute favorites are Teri and Rosa and Kathy. They make sure that they communicates from beginning to end whats needed. They even call me to ensure that I stay on track with my treatment. Im thankful that I found an honest dental office.

Crome Book

I had a fantastic experience at All About Beautiful Smiles. From the moment I walked in, I was greeted by the friendly front desk staff who made me feel welcome and at ease. The office was spotless, modern, and had a calming atmosphere that really helped alleviate any dental anxiety. Dr. St. Mathew- Daniel and the entire team were incredibly professional and thorough. They took the time to explain each step of the process, answering all my questions and ensuring I was comfortable throughout my appointment. I especially appreciated how gentle and precise the hygienist was during the cleaning. The level of care here is exceptional—they use the latest technology, and it's clear that patient comfort and quality treatment are their top priorities. I also loved that they offer flexible scheduling options and are always on time with appointments. If you're looking for a dentist who genuinely cares about your health and comfort, I can't recommend All About Beautiful Smiles enough. I'm thrilled to have found such an amazing practice and will definitely be returning for all my dental needs!

Shen K

Let me just start by stating this was the best experience I have ever had at a dentist office. If I could give them a hundred stars I would. The team made me feel comfortable and kept asking me how I was; I have never felt so important in my life in a dentist office! I am extremely happy with all of my results so far and they have a lifelong customer in me!!! Thank you Dr Matthew-Daniel, Dr. E, Julie, Rosa... this team was the embodiment of excellence!!

Thank God for having guided me to you. There can never be less than five Stars for a beautiful team of dental health professionals. I thank you for the attention you have always given me, and for the opportunity to be able to smile confidently and because that makes me happy. I love them. Thank you for being who you are. 😊❤️🙏 You are a fabulous team. Thank you for always giving your best. I am your patient, but I feel like a friend. I bless you. 🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏🙏

4Bidden & Pretty

Amazing stuff beautiful experience. I had the opportunity to read some of the other reviews before I came to All About Beautiful Smiles and it broke my spirit. When your looking for a car or buying a house your presented with a quote for what your interested in, however people often forget it's just that "A quote" it's up to you to make the decision if you want to accept the help or not. If it's out of your budget then communicate that. It's a shame how people gaslight others because of their financial circumstances. I say all that to say this Dr. Daniels and staff continue to evolve and change lives like you have done for me. Teri your a keeper 💛 I'll post my smile once I get my permits ❤️ #onedentaloffice

Marisol Gonzalez

As someone with severe dental anxiety, I was really nervous going in to get my teeth checked out. A pain in one of my lower molars was the only reason why I ended up going in general, and when looking up options this practice came up. Right off the bat, I was interested by their "un-dental" experience...I have had experiences with other practitioners not caring for pain, or my severe anxiety. From the moment I walked in they were extremely kind. The office itself is beautiful and relaxing, with gentle music and relaxing aromatherapy. When I got in the chair, they examined the condition of my teeth, which wasn't the best but they were determined to help me gain a beautiful smile again. My front teeth had a huge cavity- they both needed root canals and I needed multiple extractions. I was terrified, but everyone was so kind and made sure I was comfortable and even helped me with financing as well for all the care that was needed which took a huge weight off my shoulders.

Let me start by saying Dr. St. Matthew-Daniel and Dr. E are incredible. Not only are they dedicated to cultivating a welcoming dental experience, but they are amazing at what they do. I have the world's lowest pain tolerance and any time I so much as flinched, they would see if I was alright and needed to be numbed. This is a stark contrast to many other dentists I have went to that seemed to not care. Them, their hygienists, everyone in the office seems to be in high spirits and above all wants you to be comfortable. Even first walking in, the receptionists have always been very kind to me and helped me to make appointments and communicate any concerns to the doctors.

As of right now, I am waiting on my permanent crowns for my front teeth. Even the temporary bridge I have in place looks beautiful, which makes me very excited for the final product! I never thought that I would be confident in my smile again, but now I feel so comfortable with my teeth that not only did it boost my confidence, but it kickstarted what is hopefully the beginning of a great dental hygiene routine! I can never really thank them enough for their lovely work and I will be hopefully returning to their practice post-extraction to get what I am sure will be a beautiful dental implant! If not for them, im sure my teeth and gums would have been in bad shape, but Im confident that I'm on the path to healing now. If you're looking for a judgement free, caring dental practice, this is the one!!!
